

# ZAC WELLSANDT

---

ZAC.WELLSANDT@GMAIL.COM | (509) 280-4007 | GITHUB.COM/MAYHEMPHONE | ZACWELLSANDT.COM

Full stack developer in Seattle who thrives in collaborative and creative environments that prioritize tackling challenges head-on. Pivoting from 15 years of radio programming leadership which fuels my user focus in software design. Experienced in Node, React and JavaScript.

---

## SKILLS

React, Node, JavaScript, Express, EJS, Postgresql, Sequelize, SQL, Mongo, Mongoose, Python, Bootstrap, Reactstrap, Materialize, JSX, CSS, HTML, GitHub

---

## PROJECTS

### **Cut / Color** – *Stylist consultation and scheduling*

Node, React, MongoDB, Mongoose, JavaScript, Reactstrap/Bootstrap

A full stack app that allows new clients to walk through the consultation and scheduling process with their stylist.

### **SODSC** – *Merch site for the Soldiers of Destiny Scooter Club*

Node, Express, EJS, Postgres, Sequelize, JavaScript, Materialize

A full stack website that includes a merch store, CMS and payment process via Stripe.

### **The Destiny 2 Speaker** – *Alexa skill used to provide pertinent game information*

Alexa, AWS, Node, JSON

An Alexa skill hosted on AWS. Receives user input, then hits multiple API calls to retrieve the correct information.

---

## EDUCATION

### **General Assembly** – *Software Engineering Immersive*

March 2018 – June 2018

Completed a 12-week training program for software engineering in Seattle, WA. The course was focused on full stack development, where we coded both front and back end applications with modern frameworks, libraries and languages.

---

## AWARDS AND ACKNOWLEDGEMENTS

### **1<sup>st</sup> Place General Assembly Hackathon**

Spring 2019

Worked with a team of two engineers, two UX designers and a data scientist. We built an app that used machine learning to analyze a person's emotional state based on their written submission and returned resources to help. React, Django, and Jupyter.
